## **RESOLUTION REGARDING LIDO BEACH REDEVELOPMENT** Site Plan and Major Conditional Use Applications

*It is the position of the CCNA members that:*

CCNA strongly supports a Lido Pavilion project that clearly serves the public interest. There are strong reasons to question whether the Lido Beach Redevelopment LLC site plan and major conditional use current applications truly serve the public. CCNA urges the City Commission to faithfully adhere to the highest standards in securing the public interest with regard to Lido Pavilion, ensuring that public beach and facility access, parking, associated traffic, environmental integrity, quiet enjoyment and any other factors which impact the public's enjoyment of Lido Pavilion are maintained or improved, not diminished. CCNA encourages the City Commission to deny any proposal that fails to meet these standards.

Passed and duly adopted by the CCNA Membership,  
this 8<sup>th</sup> day of September, 2018.
