

Neighborhood Traffic Safety Team

Notes (bullet points) from the 08/17/23 committee meeting. we have been asked by Engineering to comment on the Flow Chart that was sent to the BoD earlier in the week. We will be suggesting the following at our next meeting.

- Early Engagement: Complainant should be involved early. Neighborhood Association should be notified and offer assistance
- Flow Charts: Break the chart into two paths,
If Warrant... and
If not Warrant...
And why.
- Educate Complainant: What are the complainant's responsibility
Support form NA
- Committee Name: "Neighborhood Traffic Safety Team," which used the pattern of the name of the MPO committee, which is Community Traffic Safety Team. We will be attending and commenting in this two (or three) county committee on safety.
