*NOTE: THIS SYSTEM IS NOT MONITORED 24/7 OR INTENDED FOR REPORTING POLICE/MEDICAL EMERGENCIES. IF YOU HAVE A POLICE OR MEDICAL EMERGENCY, CALL 911.

REPORTING AN ISSUE IN THE CITY OF SARASOTA IS EASY.

The City has created an app you can download to report problems such as potholes, broken sidewalks, tree limbs down, parking meters, and many more. City departments receiving the submissions include: Public Works, Parks & Recreation, Utilities, Risk Management, Parking, and Code Compliance. Users can also add photos and the physical location of the issue to assist staff.

The app forwards your submission to the appropriate departments where, during normal working hours, they will take care of the requests. Users will receive email updates and/or can return to the site to check the status of submitted issues. When the issue is resolved, it will be closed. Use the links below to access the apps online.
