A	Laurel Park	Alan Ezrin aezrin@gmail.com	8 properties on Oak Street. Addresses are: 1756, 1724, 1723, 1716, 1739, 1740, 1745, 1717.		Yes	The area is intersection of Oak Street and Ohio. Flooding impacts 8 properties on Oak Street. Issue is described as a need to prioritize dredging of the northwest arm of the Hudson bayou.
A	South Poinsetta Park	Ted Wilson: featherstone_corp@yahoo.com	Intersection of Osprey & Magnolia	Yes		Consistently affected by flooding
A	South Poinsetta Park	Alan Pariser sppnapres@gmail.com	1855 Orchid Street			Consistently affected by flooding. Street is without curbs and modern drainage system.
A	South Poinsetta Park	Karen Pariser KarenPariser@verizon.net	1850 Goldenrod	Yes		Goldenrod to Osprey floods during heavy rains. It appears that the entire south side from Orleander, Goldenrod, Magnolia and Orchid have severe issues with dysfunctional drainage. Water floods lawns almost to front doors.
A	Towels Court	Anna Bryan	Intersection of Morrill St/Links	Yes		Consistently affected by flooding
A	Towels Court	Anna Bryan	Intersection of Links/Adams Lane	Yes		Consistently affected by flooding
B	Bay Island Siesta Key	Leslie Butterfield: Leslie.butterfield@comcast.net	826 Norsota Way	Yes		Road parallels the north end of Siesta Key from Flamingo Ave on the west end and curving out to Siesta Drive on the east end. Several streets come into Norsota Way from Siesta Drive including Anglin Drive, Hamilton Ave and Serape Drive. Norsota Way floods significantly in heavy rain as do the feeder streets. In ability for Norsota to drain. Causes other streets to flood. This has been reported multiple times.
B	Bay Island Siesta Key	Leslie Butterfield: Leslie.butterfield@comcast.net	156 Faubel Street	Yes		Road runs east-west from Higel to Bayou Louise. In heavy rains it floods the entire length of the road, deepest at the end closest to Higel becoming impassable by foot, bike or small car. Draining can take many days.
B	DSCA	David Lough: davidlough1@gmail.com	211 N. Tamiami Trail/Embassy Suite area	Yes		Consistently affected with flooding
